PASS

EPIRB

Serial Number: _____

2.1.A It is recommended that an EPIRB operating on 406 MHz be carried and stowed in an easily accessible position. Required for courses which are more than 25 miles offshore.

Life Raft

Model: _____

Serial Number: _____

Expiry Date: _____

2.1.C A certified and in date Life Raft(s) suitable for the maximum number of persons on board shall be carried along with the full safety equipment appropriate for the planned passage. The life raft shall be stowed in an easily accessible position so that in the event of emergency the life raft can be quickly released, particularly in the event of fire.

Flares - waterproof canister

Make: _____

Quantity: _____

Expiry Date: _____

2.1.F All boats must carry a minimum of 2 approved flares/ smoke for emergency signaling. If any flares are deployed they must be replaced before the start of the next leg.

GPS Tracker

2.1.B All competing boats may be required to carry trackers supplied by Event Management which will assist control with an online map showing the positions

VHF Handheld Radio - Channel 78

2.1.D A multi-channel waterproof hand held VHF radio, which should be carried by one crew member at all times.

Sea Anchor

2.1.M A sea anchor with adequate anchor lines must be carried at all times and shall be properly stowed in an accessible place.

Tow Line

2.1.V Minimum 100 feet

RADAR Reflector

2.1.U It is recommended that all boats carry a RADAR reflector suitable for the boat or a Search & Rescue Transponder – SART.

Manual Bilge Pump

2.1.I There shall also be at least one manual bilge pump in the boat.

First Aid Kit

2.1.T All boats shall carry an adequate medical kit to include 1 x foil blanket + thermal protective aids for each crew member.

Torch

2.1.R All boats shall carry a powerful torch. (Flashlight)

Fog Horn

2.1.Q All boats shall carry an efficient fog horn. (Air Horn)

Orange Retirement Flag

Compass

2.1.N.1 All boats must be equipped with a liquid filled magnetic compass (handheld or fixed).

Satellite Phone

Phone Number: _____

n/a

2.1.D It is highly recommended if areas of the course are out of range for VHF communications that an operational satellite telephone be carried on board. Some events may require satellite telephones, this decision will be made by the organisers prior to the event.

Charts/Back-up Navigation System

n/a

2.1.N.2 mandatory for courses more than 25 miles offshore.

Nautical Almanac

n/a

2.1.N.3 mandatory for courses more than 25 miles offshore.

Emergency Grab Bag - Waterproof

fresh water

day and night flares

signaling mirror & whistle

knife, first aid kit and thermal protective aids

medical cards, passports, money, and credit cards

2.1.W An emergency, waterproof grab bag should be carried on board in an easy-to-reach position in case of emergency.
