

NorCal to SoCal

September 14-17, 2023

425 miles

Endurance runs between San Francisco and Los Angeles date back to 1929 when the race was against the clock and the sea

— a genuine sea race —

run far offshore, not round and round on a spectator-friendly short course.

This type of endurance run hearkens back to the old days of offshore racing, when it was man, machine, and compass against the savage ocean.

Leg 1 San Francisco | Marina del Rey 391 miles

Leg 2 Marina del Rey | Long Beach 34 miles
